			sowie die Pferde des hohen Sports geben uns soviel, Tag für Tag. Sie verzeihen ihren Reiter ihre Fehler, kämpfen einzig und allein für deren Sieg. Denn es sind die Reiter, die gewinnen wollen, nicht die Pferde. Die Reiter zwingen sie dazu, sich zum Sieg zu tragen und sie verletzen sie und ihre Pferdeseele jeden Tag aufs Neue. Diese Pferde ermöglichen ihnen alles, ohne sie wären sie gar nichts. Es ist an der Zeit diesen wundervollen Tieren diese Fairness, die Freundschaft und Liebe zurück zu geben, die sie täglich für uns

			abolished in order for the current world Dressage stage to return to its doctrine of being based on Classical principles and in the interest of the welfare of the horse. Rollkur is now being found in many disciplines, not just Dressage. I plead that this ongoing issue of Rollkur, allegedly 'policed and not supported' under FEI rulings, finally be adhered to. FEI, YOU alone are responsible for ensuring your Judges and Ring Stewards adhere to your own policies. In addition, there is further scientific evidence being gathered and published as to the extreme damage

			disgustingly cruel training method going to continue. time gas proved it is excessively negative to horses welfare and was discarded for the humane healthy method that prolongs healthy working life. scientists and vets have proved and published the adverse threat to horses, comfort and wellbeing. FEI you are responsible for judges following the RULE BOOK with marks. A well too many of them don't. I competition needs stopping if animals are openly abused in this way. the fiasco of the stallion being allowed in the competition when a child could see it was lame. vet didn't

			esundheitsschädlich , nimmt den pfrden die Aussrahlung, vergrault die Zuschauer, sieht nicht mal schön aus, warum wird also an dieser "foltermethode" für Pferde festgehalten ? Sie bewirkt nur das der Dressursport mehr und mehr seine Lobby als schöne Kunst verliert und in den Händen der Geldmacher verkommt. Leider auf Kosten der eleganten und liebenswerten Wesen, die so etwas lautlos ertragen. Meines Erartens müsste jeder Rier, der so etwas öffentlich zeigt und sei es nur für 2 Minuten , vom Turnier entfernt werden denn wir

			Warum sind Menschen nur so dumm und können die Rollkur nicht einfach mal lassen und dann werden diese Reiter auch noch so gut genannt. Es geht da nicht nur um die erfolgreichen Pferde wie Totilas, sondern auch viele Pferde die zb keine Turniere gehen werden Rollkur geritten, also ich finde es solltte einfach schnell was getan werden!

			Rollkur is an abhorrent training method which causes serious long term damage to horses. It should be completely banned. Horses lives are being cut short due to damage caused by them being pulled into this unnatural outline.

			Jegliches Training ist pferdegerecht so zu gesalzen, das das Pferd Schmerz- und Schadenfrei seine Arbeit verstehen und durchführen kann. Das schließt Prügel, Zwangshaltungen und zugeschnürte Mäuler mit scharfen Trensungen völlig aus. Lass dein Pferd freudig strahlend tanzen - nicht gebrochen wie eine Marionette zappeln. Es wird zeit, dass Richter und Trainer endlich zum umdenken gezwungen sind und Reiter pferdegerecht schulen. Danke t

			The poor horses which are trained with rollkur. thats not natural, its not good for them and it doesnt look healthy and or beautiful. the people who do this, can not be called riders. because riders love their horses and want to ride them healthy and they want to make them lucky.

			a kind of way which a lot of riders couldn't of better say won't identify anymore! For those who do have less knowledge the professional Horse Sports is a dangerous idea! You can see lots of hobby riders trying to ride the same way at home, get trained such kind of way from people who should have known better. But the Problem is, everybody thinks its ok, because they See doing it in public, whithout any consequences and the more than dangerous support of the FEI in changing the rules into "LDR-Long Deep and Round" is ok but please only for a max. 			Rollkur is a thing created by extremely lazy people with no patience to deal with problems in a horse friendly way. They behave like dictators forming their poor horses like soldiers. And it's all about having success, earning money and have really stupid people looking up to them. We live in a democratic world, so don't treat your horse like you're a little Hitler.

			Ich finde es sehr schade, dass Richter/ die FN weggucken, wenn es um dieses brisante Thema geht. Es ist ein Unding, dass Dressur heute nicht mehr den Schwerpunkt auf Harmonie und Zusammenspiel legt, sondern dass das spektakuläre Aussehen in den Vordergrund getreten ist. Meiner Meinung nach, kann man Pferdesport nur noch eingeschränkt bewundern, wenn man weiß, was hinter den Kulissen geschieht!

			Aachen was a disaster for Dressage Riding!!! Lame horses in a competition, moving like robots, Edward Gal in the training area pulling his horses head with a curb down to the chest... judges that don't see properly....and media that just doesn't write the truth. It's a shame what is going on there...enough pictures on Facebook show the truth of this cruelty. And still there are sponsors that give money and their good name for it. STOP THIS ABUSE NOW!!!!

			<p>Rollkur ("LDR") ist Tierquälerei und eine Straftat! Ich kenne ein sehr treffendes Zitat: "Es wurde erlaubt, 10 Minuten am Stück, LDR zu praktizieren. Gut, wie vergleicht man das am besten: Eine Frau zu vergewaltigen ist eine Straftat. Wenn man das aber nur weniger als 10 Minuten am Stück tut, ist es erlaubt." Ich weiß leider nicht von wem das Zitat stammt und es ist auch nicht der genaue Wortlaut, aber ich finde den Vergleich wirklich sehr passend und man sollte mal darüber nachdenken.</p>

			dadurch weniger belastend, schmerzhaft und falsch, indem man dieser Methode einen wohlklingenden Namen (LDR) verpasst und deren Anwendung auf 10 Minuten am Stück begrenzt. Fakt bleibt, dass diese Methode in den jeweiligen Trainingsställen, ohne Aufsicht, dauerhaft angewendet wird und auf den Abreiteplätzen mit lediglich einer Minute Pause dazwischen gezeigt wird. Dies zu erlauben, beschmutzt die Idee der Dressur und der Pferdeausbildung an sich. Die Zuständigen

			nudge a fly of his chest last night, he voluntarily put himself into a rollkur position for a sit second. To force a horse to do this is just bloody cruel, for one second let alone 30 mins training. Also, look at the hind legs! Out behind disengaged! That's not dressage that's circus trot! A rollkur horse will have collected trot on short side, watch the hind legs, then off into extended trot across the diagonal, watch the hindlegs, barely any change but the front legs so far up in the air and the judges say wow. No! Start judging the hindlegs PLEASE and then rollkur will lose it's

			European Championships in Aachen, Germany, the Rollkur is still used. it's definitely a abuse of the horses. They can't breathe well and have other negative behaviour problems by using the Rollkur. In my opinion the LDR should NOT BE allowed for 10 minutes! is it okay, to abuse a woman for 10 minutes? No it ain't! it's still abuse! When will you finally wake up and think of the horses, not the profits? They are ALIVE. They are LIVING. They are no 'Things', they are animals! They have feelings, can get hurt. Please stop it, the dressage is finally

			enttäuscht als ich gestern in Aachen war als ich an kam um 10:15 Uhr sah ich Edward Gal schon auf seinem Pferd Undercover und das obwohl er erst um 16:40 Uhr gestartet ist. Nach 5 Minuten am "langen" Zügel fing er schon direkt an mit der Rollkur. Ich war geschockt und habe keinen gesehen der auf die Uhr geguckt hat bei ihm. Es erschüttert mich zu tiefst, dass man nicht dazwischen geht und Edward Gal nicht raus wirft und alle ihm auch noch applaudieren ! Und ehrlich gesagt sehe ich auch gar keinen Sinn dahinter, dass die Rollkur angewendet werden darf aber

			Tierschutzgesetz in Deutschland darf einem Tier im Sport kein physischer und psychischer Schaden zugefügt werden! Statt die Rollkur ganz abzuschaffen räumte man ein bisschen Rollkur (10 Min.) ein. man nimmt damit nicht nur die Sicht des Pferdes, sondern überdehnt dabei die Halsmuskeln, das Nacken- und Rückenband und führt somit zu Folgeschäden. die Ohrspeicheldrüse wird schmerzhaft gequetscht und der Kehlkopf ebenfalls. Forschungen mit Nasenschlundsonden haben gezeigt, dass schon gering zu eng gerittene Pferde dort Blutungen

8/16/2015 13:07:52	Patricia	Lord	It is a disgusting trend that is horrible for the horses and has only been encouraged by people who think it is right, it is about time the horses health and well being be addressed and not a humans idea that benefits only the rider not the horse. it is simply unnecessary to train and allow a horse to be ridden in this way, and it needs to be stopped. This involves not just the trainers and the riders but talso the judges and organisers who continue to allow this practice to continue and to even reward it.	Spain	Yes

			We have the responsibility of our horses. We have to work together and not against to each other. Riding in the "Flexing Position" isnt just unfair, it's hurting the horse and damages the physilogic and psyche of the horse.

			Ich protestier mit aller Vehemenz gegen Richter und Verantwortliche, Abreitszenen in LDR Manier zu verbieten. Sie können sich nicht weiter aus Ihrer Verantwortung stehlen! Unsere Jugend hat ein Recht, sich an unanfechtbarer höchster Reitkultur zu orientieren. Sie allein tragen die Verantwortung für jegliche weitere Entwicklung. Werden sie sich endlich dieser Verantwortung bewußt! Andernfalls wird Reitkultur nur mehr in Büchern der Alten Meister zu finden sein.

			This has gone on long enough. The damage it is doing not only to competition horses but to young people coming up in Dressage, to continually see their mentors and heroes winning with hyperflexioned horses is long lasting and needs to be stopped. You have the power to insist upon change with the judging.

			With decades behind us in the training of horses, this type of training is unacceptable. Are you not better than this? We are to be the caregivers and keepers of Gods horses. Not to abuse them for the sake of a name announced or a ribbon. They are so much better than that.

			Rollkur is an appalling thing to do to a horse. What would people say if you were holding a dog so it couldn't breathe properly? It'd be classed as animal cruelty immediately so why isn't this happening for horses? And the fact that the FEI hasn't banned it and come out in favour of a ban for anyone subjecting horses to this barbaric practice

			<p>This practice ignores what is in the horse's best interests, both mentally and physically, and should be banned immediately. What is pretty or engaging about watching a horse being forced into completely unnatural postures and forced to perform that way? There are many lovely dressage moves that don't force the horse into positions that are painful and often terrifying for them. Check out these horses' facial expressions - these are scared horses that are in pain. This really needs to stop.</p>

			damage, which is cumulative, is evident on physical examination of horses trained in Rolkur. Veterinarians must first and foremost be the advocate for the physical and psychological well being of horses and must weigh in on training methods that lead to injury. Horses trained in Rolkur become mentally switched off most of the time with the exception of extreme and often violent reaction as they try to evade the pain of the exercise. They are deprived of normal breathing with disruption to the upper airway and soft palate. Rolkur is inhumane and dangerous for

8/16/2015 18:32:01	audrey	gibson	stop this cruel practice in the name of sport.	United Kingdom	Yes

			training of this sort goes on in all horse barns where a point system or a judging of the horse is to occur, the cruel training of the rollkur and butting a horse around or up is for lazy trainers . Horses trained in this way have terrible skeletal issues later in life but not too much later usually at 15 to 20 there in so much pain they have to be euthanized

			den sogenannten "Profis" praktizieren diese ekelhafte Form der angeblichen schön aussehenden Art des Reitens. Doch wer ein genauen Blick hat sieht in drn Augen des Pferdes die Qual, die es erleiden muss. Es ist trauig das gerade die "Profis", die ja ach so viel Ahnung haben, das nicht erkennen. Das Schlimmste ist, dass sich viele ein Beispiel daran nehmen. Und selbst wenn am Abreiteplatz ein Aufseher steht, dann wird eben zu Hause in feinsten Rollkur-Manier weitergeritten. Siwas macht einen

			performed on Glocks Undercover at the 2015 European championships Aachen 2015 has brought tears to my eyes. This method must be banned totally as being an inappropriate training method. 8 mins rollkur, one minute break followed by another 8 mins rollkur falls within FEI guidelines but does not in any way protect the horse. please change this rule immediately and insist that any behind the vertical action by the horse must be immediately corrected by the rider. It is not appropriate to sit back and let this continue to happen,

			It must be addressed by the FEI; it is not a necessary part of training a GP horse. It's a short cut. Basic anatomy of the horse will tell you that riding with the horses head and neck in such a position is detrimental and cruel to the animal. As long as the stewards allow it in warm up rings, it will continue to happen, and until the FEI wake up and realize that by allowing such a practice to occur in warm up arenas the sport will remain under scrutiny.

			Bitte bitte schafft die Rollkur ab. Warum erkennt keiner das die Pferde unter Schmerzen gehen . Es ist eine körperliche u psychische Totur . Es ist laut Tierärzten erwiesen das solche Armen Pferde durch solches ungesundes Reiten Artrose in den Halswirbeln erleiden. Das ist gegen den Tierschutz u ich hoffe das es bald höchst bestraft wird wenn sowas weiter unbeachtet bleibt!!

			Ich bin für eine tiergerechte Ausbildung und Vorstellung der Pferrde und hoffe dass in Zukunft die Richter das auch so sehen, Leuten wie diesem Gal gebürt kein Erfolg . Ich glaube die ganze Welt möchte wieder Pferde mit einem normalen Bewegungsablauf. Die Zeiten der Vorderbein schmeissenden Schaukelpferdchen ist hoffentlich vorbei.

			rollkur is counterintuitive. In order to bend his neck this far, a horse must raise his spine, but how can he effectively do that with the weight of a stupid human on his back?! Also this restricts the airway thus limiting crucial oxygen to the muscles raising risk of injury, also limiting oxygen to the brain thus increasing risk of clumsiness, injury and of course mistakes. Rollkur demands the horse to do the very thing it restricts the horse from doing.

			Es ist ein Skandal,dass massive Tierquälerei und Reiten ohne Sinn und Verstand von Richtern, Trainern, Presse etc. als Spitzenleistung bewertet werden bzw. als solche verkauft werden kann. Es empört mich, wie hier Pferde physisch und psychisch zugrundegerichtet werden - und sich die Verantwortlichen noch als Horsemen darstellen.

			Ich bin dafür, dass Pferde respekt- und liebevoll behandelt werden, so wie wir es auch von ihnen erwarten. Ich hoffe, dass die Menschen einsehen, dass ein Miteinander mit dem Pferd millionen mal besser is, als gegen das Pferd und mit Gewalt zu arbeiten. Hoffentlich bewirkt diese Aktion etwas in den Menschen, die das bis jetzt nicht verstanden haben. Danke!

			verboten! Echt erbärmlich, dass das Streben nach dem Erfolg mancher Menschen so wichtig ist, dass sie ihre Pferde dazu zwingen, ihren Kopf "schön" zu halten. Ist solchen Menschen der Erfolg wirklich wichtiger als das Wohl ihres Pferdes?! Denkt immer daran: Pferde sind auch Lebewesen, die Spaß am Laufen haben. Aber muss das sein, ihnen den Spaß zu nehmen? Vorallem ist Reiten mit solchen Zwangsmitteln kein Gefühl der Freiheit mehr...Pferde nehmen Menschen auch so, wie sie sind, und binden ihnen an ihre Versen auch keine

			Rollkur ist leider schon so verbreitet und selbst auf großen Turnieren wird nichts dagegen gesagt aber dass der reiter auch mal an sein Pferd denken sollte dass es so fast nichts mehr sieht abei genau dass ist ja der vorteil für die reiter die es machen denn dann lässt sich ihr Pferd besser lenken. Solche Leute sollten keine pferde reiten geschweige denn besitzen dürfen denn Tollkur IST tierquälerei

			It cannot be stressed enough that the method of Rollkur, LDR or whatever you may call it, leads to discomfort at best for the horse. What does it say about our society, if we treat a defenseless animal in a way like this, only for entertainment and big money? In what way are we better than the Romans, letting men fight against lions? Is panem et circenses at all cost still en vogue?

			Es ist nicht zu fassen, was die Menschen den Tieren antun. Es ist wissenschaftlich bewiesen, dass solche Methoden keinen positiven Effekt auf das Pferd haben, sondern nur physischen und psychischen Schmerz beim Pferd auslösen! Daher sollte es von einem Verband wie der FN nicht gestattet sein, sein Pferd legal zu quälen! Das Leiden der Pferde muss ein Ende haben!

			Please save our sport - and our horses! The horses pay the price for this kind of anatomically wrong riding - please act immediately! We need biomechanically sustainable riding and sound horses - especially in the top riding circles as they set the wannabe example for everyone else - which should make us strive for perfection and horse welfare and the economically driven circus that world is today.... Please act to save our horses and horse knowledge while we still have it!

			I fully support this petition to support the BANNING of rollkur in competition at all levels, and support the return to CLASSICAL TRAINING. All judges need to be educated on how to recognise horses trained in rollkur and PENALISE these horses and riders accordingly. The FEI needs to support 'The Happy Athlete'. Horses trained in rollkur are biomechanically compromised and this causes long term career ending damage.

			Why do people this with horses? The horses have done nothing and are punished, while they get her nose up to the breast and this hurts of course very much. These people who torment their horse in such this way aren't allowed to work with horses, because horses are so wonderful animals and they Need their freedom and they want to have fun with the rider and are treated well, but not rolled up walk around and become forced!

			Elimination of rider in the show ring if judges suspect RK practice, decrease pressure of FEI young horse tests in dressage and eventing (current tests are too demanding on the young horses! Please review the tests!) , elimination of any competitor whose horse shows discomfort in the show ring (mouth open, excessive salivation, switching of tail, unevenness of gaits...), educate judges in pinpointing what is wrong and what is right . Some judges obviously were not aware of Tortillas ' discomfort in Aachen considering the discrepancies of marks that were given!

			There is NO NEED for Rollkur/LDR in fine riding. There is NO NEED to take a horses pride. STOP this CRUELTY! YOU REPRESENT OUR COUNTRIES AND OUR WAY OF RINDING! I don't want to be represented from a Rollkur-Rider. Look at riders like Ingrid Klimke, Ursula Gräf - These are GOOD Examples for training horses FAIR.

8/18/2015 20:23:20	K.	Avery	One only has to understand simple anatomy to recognize the incorrectness of posture and consequent cruelty that rollkur inflicts upon a horse. It is unfathomable to me how anyone in their right mind and conscience can not only continue to ride and train this way, but reward such atrocities with medals!! Enough, already! Every single person contributing to this, worldwide, should be held accountable to contributing to this cruelty, and to ruining the art of dressage.	United States	Yes

			The "Rollkur" is not only a sign of disrespect to a horse and a way of suppressing a fellow creature. Furthermore it is the manifestation of a reckless breeding policy that has transformed the once magnificent and powerful horse into a hypermobile being , that can be so easily abused.

			Cruel practices that should be banned world wide as they are not necessary. Banned at competition and also at home training!!! An out right ban across the board is needed here. If a rider is found to be using these devices whether at home or events they should be banned from competition and team selection.

8/18/2015 8:19:43	Jennifer	Fleck	It is so sad that with the knowledge and education we have access to in 2015, that people still display cruelty towards animals. It is even more sad to think that people look up to those called "sports persons". I wish nothing more than for people to put the needs of their animals first, before their own, before the win and before the fame! Stricter guidelines have to be set, more controls at the training ground at competitions as well as their own training facilities.	Australia	Yes, No
8/18/2015 10:59:56	Melia	Brent-White	I would like to see the FEI return to the principles of their guidelines and ban techniques such as Rollkur which clearly is not mentally or biomechanically beneficial for the horse.	Australia	Yes, No
