			Unsere Pferde, sowie die Pferde des hohen Sports geben uns soviel, Tag für Tag. Sie verzeihen ihren Reiter ihre Fehler, kämpfen einzig und allein für deren Sieg. Denn es sind die Reiter, die gewinnen wollen, nicht die Pferde. Die Reiter zwingen sie dazu, sich zum Sieg zu tragen und sie verletzen sie und ihre Pferdeseele jeden Tag aufs Neue. Diese Pferde ermöglichen ihnen alles, ohne sie wären sie gar nichts. Es ist an der Zeit diesen wundervollen Tieren diese Fairness, die Freundschaft und Liebe zurück zu geben, die sie täglich für uns aufbringen. Im Alltag und im Umgang mit ihnen, sowie in dem hohen Klassen des Reitsports.

			ROLLKUR must be abolished in order for the current world Dressage stage to return to its doctrine of being based on Classical principles and in the interest of the welfare of the horse. Rollkur is now being found in many disciplines, not just Dressage. I plead that this ongoing issue of Rollkur, allegedly 'policed and not supported' under FEI rulings, finally be adhered to. FEI, YOU alone are responsible for ensuring your Judges and Ring Stewards adhere to your own policies. In addition, there is further scientific evidence being gathered and published as to the extreme damage Rollkur inflicts upon its victims whom suffer greatly and lead miserable lives. The Horse has been the peoples most notable and Noble friend for centuries, helping to save nations in battle, courier our goods, people and services. Rollkur is damaging these might animals. STOP ROLLKUR NOW	Australia

8/16/2015 7:59:53	ann	pye	how long is this disgustingly cruel training method going to continue. time gas proved it is excessively negative to horses welfare and was discarded for the humane healthy method that prolongs healthy working life. scientists and vets have proved and published the adverse threat to horses, comfort and wellbeing. FEI you are responsible for judges following the RULE BOOK with marks. A well too many of them don't. I competition needs stopping if animals are openly abused in this way. the fiasco of the stallion being allowed in the competition when a child could see it was lame. vet didn't want it lto compete., judges didn't stop the test and marked it too. unbelievable. Your integrity is no longer viable. you need replacing.	United Kingdom

			Punish abusive training methods in dressage with severe bans from competition. Paul Schockemohle was banned for life from competition for barring his show jumpers. Do the same to dressage riders and trainers who use rollkur - now called ldr. Abuse is not just hitting.

			Es ist esundheitsschädlich, nimmt den pfrden die Aussrahlung, vergrault die Zuschauer, sieht nicht mal schön aus, warum wird also an dieser "foltermethode" für Pferde festgehalten ? Sie bewirkt nur das der Dressursport mehr und mehr seine Lobby als schöne Kunst verliert und in den Händen der Geldmacher verkommt. Leider auf Kosten der eleganten und liebenswerten Wesen, die so etwas lautlos ertragen. Meines Erartens müsste jeder Rier, der so etwas öffentlich zeigt und sei es nur für 2 Minuten , vom Turnier entfernt werden denn wir können uns alle vorstellen wie derjenige u Hause mit dem Tier umgeht.

			Warum sind Menschen nur so dumm und können die Rollkur nicht einfach mal lassen und dann werden diese Reiter auch noch so gut genannt. Es geht da nicht nur um die erfolgreichen Pferde wie Totilas, sondern auch viele Pferde die zb keine Turniere gehen werden Rollkur geritten, also ich finde es solllte einfach schnell was getan werden!

			Rollkur is an abhorrent training method which causes serious long term damage to horses. It should be completely banned. Horses lives are being cut short due to damage caused by them being pulled into this unnatural outline.

			Die Rollkur ist Tierquälerei.Das beste Beispiel ist der arme Totilas.Wenn man so trainiert wird bekommt man schwere Folgeschäden,womit ein schmerzfrei es Leben für das Tier nicht mehr möglich ist.Durch solche Ausbildungsmethoden ist das Tier schon von vornerein zum Tode verurteilt

			Jegliches Training ist pferdegerecht so zu gesralten, das das Pferd Schmerz- und Schadenfrei seine Arbeit verstehen und durchführen kann. Das schließt Prügel, Zwangshaltungen und zugeschnürte Mäuler mit scharfen Trennungen völlig aus. Lass dein Pferd freudig strahlend tanzen -nicht gebrochen wie eine Marionette zappeln. Es wird zeit, dass Richter und Trainer endlich zum umdenken gezwungen sind und Reiter pferdegerecht schulen. Danke t

			The poor horses which are trained with rollkur. thats not natural, its not good for them and it doesnt look healthy and or beautiful. the people who do this, can not be called riders. because riders love their horses and want to ride them healthy and they want to make them lucky.

8/16/2015 9:50:57	Stefanie	Eckl	<p>Horse Sports goes a kind of way which a lot of riders couldn't of better say won't identify anymore! For those who do have less knowledge the professional Horse Sports is a dangerous ideal! You can see lots of hobby riders trying to ride the same way at home, get trained such kind of way from people who should have known better. But the Problem is, everybody thinks its ok, because they See doing it in public, whitout any consequences and the more than dangerous support of the FEI in changing the rules into "LDR-Long Deep and Round" is ok but please only for a max. Of 10 min.. And the reason for that? Money and the greed of humans, sitting in the wrong positions, trying to satisfy unknown people who always want to see more, better, more spectacular things doing with that great soft and handsome animals in opressing them and teaching them "learned helplessness" als they say, instead of reaching horses our hand, get to know each other and be friends and partners on the base of trust and respect! What I also don't understand is, that in horse sports sector when you do a exam, doesn't matter if you're just a beginner Or trying to get into the pro-sector - you have basics and stuff to learn about how horses See working, what you need to ne careful of and most important: the 7 ethic rules why, how and that you have to take care of your horse and never, in any kind of way someone is permitted to treat it bad! But just watch the way Horse Sports is going you will see - if you really do look through your own open and honest eyes - that we are so far away from these ethic rules, most don't even know that they exist actually. It's a sad time for horses and the so intelligent species human. Fei should bei more strict in such things but so should we! We single persons, riders and non riders, judges and vets, trainers, grooms, etc.. It lays only in our hands helping our soft, giant, big-hearted friends and say no to corruption, no to such training and riding methods. The Horse always comes first, it's an animal er are responsible for, an animal lot heavier and with lot of more power than er humans, but it's so nice and kind, carrying us on his back and let things get over it! Let's try to ne thankful for such kindness, trust and friendship an animal bring to us, even if we aren't able to directly communicate in words, but in our feelings, reactions and actions to our Partner</p>	Austria

			Horse! Think about it! PS: the ethic rules for horses are also readable in EVERY rules of procedure for EVERY competition - would be a good idea to read it once again, because I'm sure we all once read it! PPS: there are also some exceptions in pro and hobby-scene...

			Rollkur is a thing created by extremely lazy people with no patience to deal with problems in a horse friendly way. They behave like dictators forming their poor horses like soldiers. And it's all about having success, earning money and have really stupid people looking up to them. We live in a demoratic world, so don't treat your horse like you're a little Hitler.

			Ich finde es sehr schade, dass Richter/ die FN weggucken, wenn es um dieses brisante Thema geht. Es ist ein Unding, dass Dressur heute nicht mehr den Schwerpunkt auf Harmonie und Zusammenspiel legt, sondern dass das spektakuläre Aussehen in den Vordergrund getreten ist. Meiner Meinung nach, kann man Pferdesport nur noch eingeschränkt bewundern, wenn man weiß, was hinter den Kulissen geschieht!

			Rollkur ("LDR") ist Tierquälerei und eine Straftat! Ich kenne ein sehr treffendes Zitat: "Es wurde erlaubt, 10 Minuten am Stück, LDR zu praktizieren. Gut, wie vergleicht man das am besten: Eine Frau zu vergewaltigen ist eine Straftat. Wenn man das aber nur weniger als 10 Minuten am Stück tut, ist es erlaubt." Ich weiß leider nicht von wem das Zitat stammt und es ist auch nicht der genaue Wortlaut, aber ich finde den Vergleich wirklich sehr passend und man sollte mal darüber nachdenken.

			Rollkur wird nicht dadurch weniger belastend, schmerzhaft und falsch, indem man dieser Methode einen wohlklingenden Namen (LDR) verpasst und deren Anwendung auf 10 Minuten am Stück begrenzt. Fakt bleibt, dass diese Methode in den jeweiligen Trainingsställen, ohne Aufsicht, dauerhaft angewendet wird und auf den Abreiteplätzen mit lediglich einer Minute Pause dazwischen gezeigt wird. Dies zu erlauben, beschmutzt die Idee der Dressur und der Pferdeausbildung an sich. Die Zuständigen machen sich ob dieser Farce schlichtweg lächerlich. Niemand möchte eine derart aversive Methode im Training oder auf den Abreiteplätzen noch sehen und sie hat nichts mit der Kunst der Dressur zu tun.

8/16/2015 11:20:12	Brigitta	Seiffert		Germany	
			I watched my horse nudge a fly of his chest last night, he voluntarily put himself into a rollkur position for a sit second. To force a horse to do this is just bloody cruel, for one second let alone 30 mins training. Also, look at the hind legs! Out behind disengaged! That's not dressage that's circus trot! A rollkur horse will have collected trot on short side, watch the hind legs, then off into extended trot across the diagonal, watch the hindlegs, barely any change but the front legs so far up in the air and the judges say wow. No! Start judging the hindlegs PLEASE and then rollkur will lose it's fanatics and the horses lives will be hugely improved!

			There is no partnership or horsemanship in this practice - it may look grand but is nothing more than cruelty and a circus show. If we depore other animals in circus trick then it should be the same for horses in dressage.

			I am a veterinarian and passionate dressage rider. This Ldr riding is the worst development in the last decades. Horses don't stay healthy, they suffer deeply in joints, tendons, get breathing problems that stops them to fight against that bad riding because there is not enough oxygen. People who ride in such a cruel way should be banned from horse. The are

			As seen at European Championships in Aachen, Germany, the Rollkur is still used. it's definitely a abuse of the horses. They can't breathe well and have other negative behaviour problems by using the Rollkur. In my opinion the LDR should NOT BE allowed for 10 minutes! is it okay, to abuse a woman for 10 minutes? No it ain't! it's still abuse! When will you finally wake up and think of the horses, not the profits? They are ALIVE. They are LIVING. They are no 'Things', they are animals! They have feelings, can get hurt. Please stop it, the dressage is finally getting to its worst. Please make it end and get back to healthier methods of riding.

			Ich war traurig und enttäuscht als ich gestern in Aachen war als ich an kam um 10:15 Uhr sah ich Edward Gal schon auf seinem Pferd Undercover und das obwohl er erst um 16:40 Uhr gestartet ist. Nach 5 Minuten am "langen" Zügel fing er schon direkt an mit der Rollkur. Ich war geschockt und habe keinen gesehen der auf die Uhr geguckt hat bei ihm. Es erschüttert mich zu tiefst, dass man nicht dazwischen geht und Edward Gal nicht raus wirft und alle ihm auch noch applaudieren ! Und ehrlich gesagt sehe ich auch gar keinen Sinn dahinter, dass die Rollkur angewendet werden darf aber nur 10 Minuten.....sowas muss ganz verboten werden man sieht an Totilas wie sehr es einem Pferd schadet ! Bitte über denken Sie ihr System mal und sorgen dafür, dass die Rollkur ganz abgeschafft wird oder zumindest richtig überwacht wird und im Fall von Edward Gal der Reiter Welt weit gesperrt wird !!!! Vielen Dank !

			Laut Tierschutzgesetz in Deutschland darf einem Tier im Sport kein physischer und psychischer Schaden zugefügt werden! Statt die Rollkur ganz abzuschaffen räumte man ein bisschen Rollkur (10 Min.) ein. man nimmt damit nicht nur die Sicht des Pferdes, sondern überdehnt dabei die Halsmuskeln, das Nacken- und Rückenband und führt somit zu Folgeschäden. die Ohrspeicheldrüse wird schmerzhaft gequetscht und der Kehlkopf ebenfalls. Forschungen mit Nasenschlundsonden haben gezeigt, dass schon gering zu eng gerittene Pferde dort Blutungen aufweisen. je enger, desto gravierender. Diese Blutungen sind jedoch äusserlich nicht zu sehen. ausserdem wird das Pferd derartig in der Atmung blockiert, dass es versucht durch aufgerissene Nüstern, im Takt Atmung oder auch Schweifschlagen und andere "Widersetzlichkeiten" zu entziehen. Kurz um: Rollkur ist reine Tierquälerei auf höchstem Niveau. Ich hoffe, dass man sich endlich wieder auf die alten Meister zurück besinnt und die schonende Ausbildungsmethoden und Reitweise wieder eingeführt und entsprechend auf Turnieren bewertet wird.!

			Tierquälerei darf nicht zum Vorbild für unzählige NachwuchsreiterInnen werden! Ich bin immer wieder - und gerade nach den jüngsten Medienberichten - entsetzt, was Geldgier und Ehrgeiz diesen wundervollen (und leider stumm leidenden) Tieren antut. Weil Pferde keinen Laut für Schmerz haben - meine Stimme für sie gegen Rollkur / LDR!

8/16/2015 13:07:52	Patricia	Lord	It is a disgusting trend that is horrible for the horses and has only been encouraged by people who think it is right, it is about time the horses health and well being be addressed and not a humans idea that benefits only the rider not the horse. it is simply unnecessary to train and allow a horse to be ridden in this way, and it needs to be stopped. This involves not just the trainers and the riders but also the judges and organisers who continue to allow this practice to continue and to even reward it.	Spain
8/16/2015 13:08:04	Ina	West	A vile and unnecessary method. What is needed is time and patience to achieve good results not cruel short cuts that compromise the horse's wellbeing.	United Kingdom
8/16/2015 13:08:07	Jill	Kimber	What a disgrace!! Should be totally ashamed!	United Kingdom
8/16/2015 13:08:13	Petra	Muths	Whether you call it rollkur or LDR doesn't matter. It is cruel on the horse and should have been banned long ago.	Germany
8/16/2015 13:08:22	Katrin	Steiger	Die Dressur kann so eine schöne Sportart sein aber nur wegen den rollkur Reitern wird er verdorbene.	Germany

			Ich protestier mit aller Vehemenz gegen Richter und Verantwortliche, Abreitszenen in LDR Manier zu verbieten. Sie können sich nicht weiter aus Ihrer Verantwortung stehlen! Unsere Jugend hat ein Recht, sich an unanfechtbarer höchster Reitkultur zu orientieren. Sie allein tragen die Verantwortung für jegliche weitere Entwicklung. Werden sie sich endlich dieser Verantwortung bewußt! Andernfalls wird Reitkultur nur mehr in Büchern der Alten Meister zu finden sein.

			This has gone on long enough. The damage it is doing not only to competition horses but to young people coming up in Dressage, to continually see their mentors and heroes winning with hyperflexioned horses is long lasting and needs to be stopped. You have the power to insist upon change with the judging. Thank you.

			With decades behind us in the training of horses, this type of training is unacceptable. Are you not better than this? We are to be the caregivers and keepers of Gods horses. Not to abuse them for the sake of a name announced or a ribbon. They are so much better than that.

			The riders are cruel to the horses, also the Mafia an industry behind the riders. There is no respect to the animal. The should never more be allowed to work a horse. They should take ethic lessons - if they are intelligent enough. I get so very angry that I could forget myself!

			Please stop this cruelty to such beautiful creatures. Too many 'professional' riders are riding like this and novice riders will therefore try and copy. This is not natural and very uncomfortable/painful for the horse.

			Rollkur is an appalling thing to do to a horse. What would people say if you were holding a dog so it couldn't breathe properly? It'd be classed as animal cruelty immediately so why isn't this happening for horses? And the fact that the FEI hasn't banned it and come out in favour of a ban for anyone subjecting horses to this barbaric practice

			This practice ignores what is in the horse's best interests, bith mentally and physically, and should be banned immediately. What is pretty or engaging about watching a horse being forced into completely unnatural postures and forced to perform that way? There are many lovely dressage moves that don't force the horse into positions that are painful and often terrifying for them. Check out these horses' facial expressions - these are scared horses that are in pain. This really needs to stop.

			The physical damage, which is cumulative, is evident on physical examination of horses trained in Rolkur. Veterinarians must first and foremost be the advocate for the physical and psychological well being of horses and must weigh in on training methods that lead to injury. Horses trained in Rolkur become mentally switched off most of the time with the exception of extreme and often violent reaction as they try to evade the pain of the exercise. They are deprived of normal breathing with disruption to the upper airway and soft palate. Rolkur is inhumane and dangerous for both horse and rider. Dr. Sheila Lyons, Founder and Director, The American College of Veterinary Sports Medicine and Rehabilitation	United States

8/16/2015 18:31:52	Emma	Burke	Disgusting practise for the horse who has difficulty seeing, breathing and continuing blood supply to the mouth - remember the blue tongue scandal? Why can people learn to ride properly instead of forcing their horse into this unnatural shape?	United Kingdom
8/16/2015 18:32:01	audrey	gibson	stop this cruel practice in the name of sport.	United Kingdom
8/16/2015 18:32:02	Kelleen	Rossmann	training of this sort goes on in all horse barns where a point system or a judging of the horse is to occur, the cruel training of the rollkur and butting a horse around or up is for lazy trainers . Horses trained in this way have terrible skeletal issues later in life but not too much later usually at 15 to 20 there in so much pain they have to be euthanized	United States

			Die Meisten von den sogenannten "Profis" praktizieren diese ekelhafte Form der angeblichen schön aussehenden Art des Reitens.Doch wer ein genauen Blick hat sieht in drn Augen des Pferdes die Qual,die es erleiden muss.Es ist traugig das gerade die "Profis",die ja ach so viel Ahnung haben,das nicht erkennen.Das Schlimmste ist,dass sich viele ein Beispiel daran nehmen.Und selbst wenn am Abreiteplatz ein Aufseher steht,dann wird eben zu Hause in feinsten Rollkur-Manier weitergeritten.Siwas macht einen einfach nur sauer.

			Animal abuse is a crime in many municipalities. This is horse abuse. The FEI, trainers, riders, stewards, vets and anyone who allows and condones this behavior is an accessory to the crime. There needs to be a class action suit and people held accountable for these atrocities. Their top horses seem to be breaking now.

			Es gibt so viele Wissenschaftliche Studien und Beweise DAS Rollkur eben NICHT gymnastiziert, lockert oder ähnliches. Es schadet dem Pferd nur auf so vielen Wegen was wir jetzt zum einen an Totilas sehen(Wobei ich glaube, dass da auch Medikamente im Spiel sind) aber auch an dem verk***en Ritt von Edward Gal und Undercover im Grand Prix. DAS ist MEINE Stimme Gegen Rollkur!

8/16/2015 23:38:21	Sjaak	Hoedjes	using the rollkur is a lack of talent and common sense This horseabuse must not be tolerated.	Netherlands	
8/16/2015 23:38:22	Mareike	Kupitz	Please stopp LDR, hyperflexion or however you may call it. This type of training has to be banned out of our sport, which should be full of harmony between rider and horse. This traing causes serious pain for the horse and if it is used for a long time causes serious deseases.	Germany

8/17/2015 1:29:58	Eleatha	Beare	The rollkur performed on Glocks Undercover at the 2015 European championships Aachen 2015 has brought tears to my eyes. This method must be banned totally as being an inappropriate training method. 8 mins rollkur, one minute break followed by another 8 mins rollkur falls within FEI guidelines but does not in any way protect the horse. please change this rule immediately and insist that any behind the vertical action by the horse must be immediately corrected by the rider. It is not appropriate to sit back and let this continue to happen, especially at the highest level of dressage.	Australia

			It must be addressed by the FEI; it is not a necessary part of training a GP horse. It's a short cut. Basic anatomy of the horse will tell you that riding with the horses head and neck in such a position is detrimental and cruel to the animal. As long as the stewards allow it in warm up rings, it will continue to happen, and until the FEI wake up and realize that by allowing such a practice to occur in warm up arenas the sport will remain under scrutiny.

			Bitte bitte schafft die Rollkur ab. Warum erkennt keiner das die Pferde unter Schmerzen gehen . Es ist eine körperliche u psychische Totur . Es ist laut Tierärzten erwiesen das solche Armen Pferde durch solches ungesundes Reiten Artrose in den Halswirbeln erleiden. Das ist gegen den Tierschutz u ich hoffe das es bald höchst bestraft wird wenn sowas weiter unbeachtet bleibt!!

			rollkur is counterintuitive. In order to bend his neck this far, a horse must raise his spine, but how can he effectively do that with the weight of a stupid human on his back?! Also this restricts the airway thus limiting crucial oxygen to the muscles raising risk of injury, also limiting oxygen to the brain thus increasing risk of clumsiness, injury and of course mistakes. Rollkur demands the horse to do the very thing it restricts the horse from doing.

			NO Rollkur! Its animal abuse!!! If you ride a horse without rollkur you should not ride at all! You are a selfish individual that only thinks about him/herself! You are not an athlete and is just another abuser. People should take on Gal and many other. It does not help to complain without going to the corporates

8/17/2015 13:45:41	Magdalena	Hecker	Ich bin dafür, dass Pferde respekt- und liebevoll behandelt werden, so wie wir es auch von ihnen erwarten. Ich hoffe, dass die Menschen einsehen, dass ein Miteinander mit dem Pferd millionen mal besser ist, als gegen das Pferd und mit Gewalt zu arbeiten. Hoffentlich bewirkt diese Aktion etwas in den Menschen, die das bis jetzt nicht verstanden haben. Danke!	Germany

			Is impossible to accept this kind of work. All the judges should be ashamed, because they often reward this work on all the poor horses with high grades! This is only because the horses can't talk.

			Rollkur gehört verboten! Echt erbärmlich, dass das Streben nach dem Erfolg mancher Menschen so wichtig ist, dass sie ihre Pferde dazu zwingen, ihren Kopf "schön" zu halten. Ist solchen Menschen der Erfolg wirklich wichtiger als das Wohl ihres Pferdes?! Denkt immer daran: Pferde sind auch Lebewesen, die Spaß am Laufen haben. Aber muss das sein, ihnen den Spaß zu nehmen? Vorallem ist Reiten mit solchen Zwangsmitteln kein Gefühl der Freiheit mehr...Pferde nehmen Menschen auch so, wie sie sind, und binden ihnen an ihre Versen auch keine schwere Steine, nur damit sie unten bleiben, oder?

8/17/2015 20:18:53	Anastasia	Schreml	Rollkur ist leider schon so verbreitet und selbst auf großen Turnieren wird nichts dagegen gesagt aber dass der reiter auch mal an sein Pferd denken sollte dass es so fast nichts mehr sieht abei genau dass ist ja der vorteil für die reiter die es machen denn dann lässt sich ihr Pferd besser lenken. Solche Leute sollten keine pferde reiten geschweige denn besitzen dürfen denn Tollkur IST tierquälerei	Germany
8/17/2015 20:20:06	Maren	Kunst	There is nothing more to say NO ROLLKUR	Germany

8/17/2015 20:22:15	Saskia	Kewitz	This is pure horror! Ban this methods at once! It cannot be stressed enough that the method of Rollkur, LDR or whatever you may call it, leads to discomfort at best for the horse. What does it say about our society, if we treat a defenseless animal in a way like this, only for entertainment and big money? In what way are we better than the Romans, letting men fight against lions? Is panem et circenses at all cost still en vogue?	Germany

			Ich war vor Ort als Gal seinen Undercover 50 min in Halsflexion bis zum Anschlag traktierte. Auf Anfrage an den zuständigen Steward gab er seine Ohnmacht preis da Gal sich an die 10 min Regel hielte... 10 min wieder und wieder und wieder - ein Wahnsinn!!!!!!!

			I would like to see people more informed on how to train a horse into the bit, but also would like the powers that be to be understands with horses that evade the bit by over flextion as well. Also anyone that judges and has power to disqualify, I would pray knows that to take into account the horses build and understand skeletal and muscle structure is different in all horses.

8/18/2015 8:48:31	Lynne	Pile	in this age of supposed enlightenment there is no place for such abuses, using these methods just shows the inadequacy of the riders and trainers. It is time to change this sport for the better. This could also include removing the requirements for spurs and double bridles to be compulsory, surely if a horse performs as well in a gentle bit (I won't say snaffle as even some of these can be severe) and without the rider wearing spurs that shows better training and partnership	United Kingdom
8/18/2015 8:49:17	Sheryl-Anne	McVeigh	there is actually nothing to say or to ad - exept, that I hope this petition will fulfill it's purpose	Germany

			Please save our sport - and our horses! The horses pay the price for this kind of anatomically wrong riding - please act immediately! We need biomechanically sustainable riding and sound horses - especially in hte top riding circles as they set the wanna-be example for everyone else - which should make su strive for perfection and horsewelfare and the economically driven circus that world is today.... Please act to save our horses and horse knowledge while we still have it!

			I fully support this petition to support the BANNING of rollkur in competition at all levels, and support the return to CLASSICAL TRAINING. All judges need to be educated on how to recognise horses trained in rollkur and PENALISE these horses and riders accordingly. The FEI needs to support 'The Happy Athlete'. Horses trained in rollkur are biomechanically compromised and this causes long term career ending damage.		
8/18/2015 10:43:24	Mandy	Etherton		Australia

			Why do people this with horses? The horses have done nothing and are punished, while they get her nose up to the breast and this hurts of course very much. These people who torment their horse in such this way aren't allowed to work with horses, because horses are so wonderful animals and they Need their freedom and they want to have fun with the rider and are treated well, but not rolled up walk around and become forced!

8/18/2015 13:14:51	Vanessa	Richter	Rollkuren sollen abgeschafft werden. Diese unterstützen nur die Tierquälerei, es gehört verboten! Für Pferde können Rollkuren böse Folgen haben: hysische Folgen: Verspannung, ausrenken von Wirbeln, Schmerzen ohne Ende, Ohrspeicheldrüsen-Schwellung, Rückenprobleme, ich spekuliere auf Kissing Spines. Was der Falsche Knick im Hals auslöst, kannst du dir denken. Atemprobleme, absterbende Zungen durch zuviel Zug am Zügel, was ja den Kopf runterzieht, Kieferschäden durchs Gebiss bei dieser Belastung. Psychische Folgen: Angst, Unsicherheit, Frust, Ärger, Stress alles basierend auf den Schmerzen im Körper. Unwillen, Widersetzlichkeit vielleicht bis hin zur Resignation und Selbstaufgabe. Damit kann man Pferde seelisch komplett kaputt machen...	Germany
8/18/2015 13:14:57	Brooke	Cunningham	Please, stop rewarding this horrid training method. It is abusive and is ruining the great discipline of dressage.	United States

			This practice of rollkur shouldn't be used for the glorification of the rider. The pressure on the horse from this practice is barbaric and needs to stop for the paramount welfare of all horses. Every horse deserves to be a happy horse.

			Elimination of rider in the show ring if judges suspect RK practice, decrease pressure of FEI young horse tests in dressage and eventing (current tests are too demanding on the young horses! Please review the tests!) , elimination of any competitor whose horse shows discomfort in the show ring (mouth open, excessive salivation, switching of tail, unevenness of gaits...), educate judges in pinpointing what is wrong and what is right . Some judges obviously were not aware of Tortillas ' discomfort in Aachen considering the discrepancies of marks that were given!

			One only has to understand simple anatomy to recognize the incorrectness of posture and consequent cruelty that rollkur inflicts upon a horse. It is unfathomable to me how anyone in their right mind and conscience can not only continue to ride and train this way, but reward such atrocities with medals!! Enough, already! Every single person contributing to this, worldwide, should be held accountable to contributing to this cruelty, and to ruining the art of dressage.

8/17/2015 23:04:17	kerstin	mencz	this is a no go!!	Germany
8/18/2015 8:19:43	Jennifer	Fleck	It is so sad that with the knowledge and education we have access to in 2015, that people still display cruelty towards animals. It is even more sad to think that people look up to those called "sports persons". I wish nothing more than for people to put the needs of their animals first, before their own, before the win and before the fame! Stricter guidelines have to be set, more controls at the training groud n at competitions as well as their own training facilities.	Australia
8/18/2015 10:59:56	Melia	Brent-White	I would like to see the FEI return to the principles of their guidelines and ban techniques such as Rollkur which clearly is not mentally or biomechanically beneficial for the horse.	Australia
